THE BESPOKE SERVICE WE PROVIDE

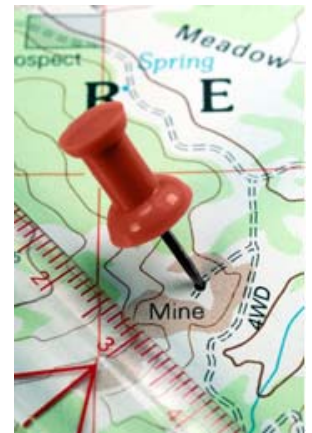

We look forward to our first meeting with you, where we will discuss your moving priorities, and what you require from your new life after relocation to Kent or East Sussex.

After finding out precise requirements for your ideal house, we carry out a home search, provide you with reports on our findings of suitable properties, and then the home search is narrowed for you to view. We can also provide an orientation tour of the area.

We are able to source properties that have not come on the market, assist with booking removals firms, and also supply you with a package of local information covering schools, amenities, builders, interior designers, craftsmen and a list of contacts to assist you in all eventualities. We can also help with local planning consents. All with the aim of making your move to Kent or East Sussex as simple as possible. We seek to take the pressure out of relocation.

We can enter into negotiations on your behalf with regard to the price of your chosen property. We save you money and time to ensure a pressure free move once the home search is complete.

We go one step further at Perfect Property Relocation by connecting any utilities, landlines or SKY television in your new home, as required.
